- Friend with Sprint framework
- Familiarity with Maven, Axis, Junit
- Enjoy and Familiar with the Agile development processes
- Familiarity with Android development is a plus
- Knowledge of Mongo DB is a plus
- Understanding Enterprise Service Bus is a great plus

Personality required:

- Not a lonely bird. Someone that enjoys team working and office environment
- Have good communication skills
- Love to deliver quality software
- Self-Motivated
- Finisher

A little bit about us:

We are a recently established startup focused on mobile banking and mobile payment with international experience developing high quality software products in Iran and overseas.

our office is based in Dowlat-Shariatie in a little corner close to Sadr highway.

We love new technologies, we work hard to deliver high quality software and we judge ourselves by the impact we make to the community and people we produce software for.

Interested or Curious?

Please email your CV to ahooman@... and I will be happy to come back to you.
